Subject: [EXTERNAL] OBJECTION TO DA2023/0130. Site 109a Church St Lidcombe

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Council,

I strongly object to the application of having a Garbage station next door to my house.

How disgusting to even consider such an application.

The organic waste transfer station will be right in the middle of our highly populated residential area. It will bring truck traffic congestion to highly populated residential streets.

The road damage from all the truck traffic will cost rate payers millions.

The noise and soil contamination is irreversible.

The smell of the station will be unbearable, not to mention our million dollar homes will decline in value by having a rubbish tip in our backyards.

Lidcombe is a beautiful suburb and should remain that way. Retaining its tranquillity and be free from the pollution of the tip.

Please do not even consider this application.
