Hi,

I'm writing to notify you of my concerns of the construction of an organic waste transfer station at 109A Church Street in Lidcombe.

- The odor and air quality would suffer especially due to its close proximity to residential areas as well as businesses that operate within that area. This could attract pests and insects and present potential health risks.
- There would be an increase in noise and traffic due to the constant movement of trucks, machinery and personnel as well as increasing the amount of heavy vehicles which pass through the Lidcombe area which would further damage the roads
