---

The waste transfer station will pollute the air around Lidcombe.  
It would cause traffic congestion together with the large block of units without parking spaces.  
The smells, traffic and impact to our property values.

Who thought up the idea to putting a smelly waste depot in the middle of an old suburb as lidcombe?!

If council want to build this waste station why don't the build it on councils backyard - in Parramatta!  
We put up with the smell of the sheep yards now we are being threatened by another form of pollution.

Look somewhere else.

A concerned rate payer.
