---

To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

We have a nice, quiet neighborhood in the area. We don't want to see that after the transfer station is completed, there will be waste transfer trucks driving around, causing traffic congestion, and children's travel safety will be seriously threatened. Plus, the noise, dust, smoke, and stench from trucks and transfer station factories are very detrimental to the physical and mental health of everyone living here.

Against the following points:

- . travel safety
- . physical and mental health
- . More traffic congestion.
- . Noise.
- . Dust fumes.
- . Bad smell.

your sincerity,
