To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

If you can answer my following questions,

1. Why you want Australia residents live next to the waste transfer station?
2. Why you want primary students study next to the waste transfer station?
3. Why you want child care centre kids play close to the waste transfer station?
4. Why you want to make the traffics busier around the residents and school area?
5. Do you care about the health of the residents in lidcombe?
6. Why you want to make a nice and quiet suburb noisy and smelly?
7. If you are lidcombe residents, would you like to live in a noisy, dusty and bad smell, bad traffic area?

Object to the following point:

- . Affect people's health especially kids and elder people.
- . Bigger traffic jams in the morning and afternoon time around school zone . More traffic congestion on church st .
- Noisy to neighbour residents and primary students and child care kids.
- . Dust fumes.
- . Bad smell.

Lidcombe is a nice and quiet suburb. Many people from different countries live together here. We do not want to be affected by the waste transfer station. Please find a better position not residents area. Thank you so much.

Your sincerely,
