To whom it may concern,

I strongly object to the proposed development - Organic Waste Transfer Station on Church Street.

My residence is not far from the proposed site and I have serious concerns about the construction of the Organic Waste Transfer station because:

1. There will be so many big trucks that will be driving around the streets all day long that could cause a major traffic congestion. It will cause so many problems for people trying to leave home to go to work and or the opposite for people trying to come home from work. That is just the issue with people leaving and coming home what about all the extra noise that the trucks will make coming and going and emptying the truck loads of rubbish.
2. With so many trucks that will be in the area and driving on the roads this is going to have more wear and tear on the roads. This will be an added cost to the residents of Lidcombe as we will be footing the bill for the repairs. As a result of the repairs that will need to be done this will also then create more problems with the flow of traffic.
3. I have 2 young grand children that live with me who love to play outside. I am worried that if the waste station is approved that my grand children will be limited to how much time play outside any more because of the additional trucks that will be on the road.
4. With the construction of the Organic Waste Transfer Station. I am also worried about what they will be disposing there. Will there be any horrible smells coming the station? What they are dumping there will it affect my health? Will what they dump there will it affect the environment?
5. My son and daughter in law have just built a brand new home. If the waste station is built it will have a negative impact on the value of their new house. However it will not only be the value on their new home but all of the houses in Lidcombe.

I hope you will take all of my concerns into account before you make a final decision. This will have a really big impact on not for me and my family but all of the people who live in Lidcombe.

Regards,
