To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

This is due to the following reasons:

The organic transfer station will produce a bad smell, attract rats, cockroaches, pests and rodents. Environmental impact of air pollution, soil pollution, sound pollution.

The hazardous fumes and pollution impact the health, well-being and lifestyle of local residents.

We had a nice and quiet neighborhood around this area. There are apartments being built and already have busy traffic on Church Street, we don't want to see once the transfer station has been built there will be waste transfer trucks going around and causing more traffic congestions. Also, object to the noise and dust fumes and bad smell from the trucks and the Plants from the transfer station.

Object to the following point:-

- * Pollution
- * Impact health and well-being of local residents
- * More traffic congestion
- * Noise
- * Bad smell
- * Hazardous fumes
- * Environmental impact

--

Kind Regards,
