---

To whom it may concern,

My name is : a resident of Lidcombe. I am writing this letter to express my strong objections and concerns regarding this development.

**Reason for objection:**

- **Impact on residents' health**, it's been evident in similar cases that a waste station like this is causing severe health issues among nearby residents including headaches, respiratory issues, skin/dermatological issues etc.
- **Severely hinder the quality of life**, especially for children and senior residents - Lidcombe has a number of primary schools in close proximity and a large number of senior residents who are more vulnerable.
- **Loss of property value**: It will lose not only residential property values in the Lidcombe area but also any future development opportunity to boost local businesses due to this facility.
- **Noise issues and heavy traffic flow** in already overflowing traffic movements in the area
- **Unacceptable operational time frame** too close to residential areas and school zones.

As a resident, a Waste Transfer Station will greatly hinder people's quality of life in the area and further diminish any future residential/local business development sustainability to maintain the family-friendly suburb that is now.

My details have been provided above should you have any questions.

Many thanks in advance.
