We as a community don't agree with the proposal of having Tip Operation in our area. I've been in this suburb for the last ten years and happily living in a quiet community.

This is a residential community and having a TIP operating in the area means significant increase in traffic, noise level and not to mention disruption of roads and the foul smell. Even though we're close to industrial area we have to consider the residential community that will be impacted of this operation.

I hope this will be greatly considered as this will not be better the community at large.
