Subject: [EXTERNAL] Objection to Development Proposal DA2023/0130 – Demolition of Existing Buildings and Construction and Operation of an Organic Waste Transfer Station

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Cumberland Council,

I hope this email finds you well.

I heard that the Cumberland Local Council proposing to build a rubbish tip(Organic Waste Transfer Station : DA2023/0131).

I am writing to express my deep concern and strong opposition to the proposed construction of a waste dump in our community.

Instead of investing in waste disposal methods that harm our environment and endanger our community, I strongly urge you to explore alternative, sustainable solutions. It is crucial to prioritize recycling, composting, and other waste reduction strategies to minimize the volume of waste generated in the first place. Investing in innovative technologies and promoting public awareness and education can contribute to a greener and cleaner future.

I kindly request that you reconsider the proposed construction of the waste dump and engage in a thorough and transparent dialogue with the community. It is essential to involve residents in the decision-making process, as our voices and concerns should not be overlooked.

It is essential that you engage in open and transparent communication with the residents of our community. We, the stakeholders, deserve to have our voices heard and our concerns addressed. I urge you to organize public forums and meetings where community members can express their opinions, ask questions, and propose viable alternatives to the construction of a waste dump.

In conclusion, I implore you to reconsider the proposed construction of a waste dump in our community. Let us work together to explore sustainable and environmentally friendly waste management solutions that prioritize the well-being of our residents and the protection of our precious natural resources.

Thank you for taking the time to consider my opposition to the waste dump construction, and I eagerly await your thoughtful response.

Yours sincerely,
