To Cumberland Council,

I would like to object (NO) to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP [778492](#) . File: [DA2023/0130](#) .

We had a nice and quiet neighborhood around this area. There are apartments being built and already have busy traffic on Church Street, I don't want to see once the transfer station has been built there, More tha one hundred Waste garbage trucks with a length of 20 metres will enter and exit Lidcombe streets daily, will definitely cause more traffic congestions and other problems.

Please find below my objection lists to build a rubbish tip in Lidcombe

- . More traffic congestion.
- . Air, Noise and soil pollution
- . Dust fumes and bad smell
- . It will negatively impact tranquility of our suburb.
- . It will negatively impact property values.
- . It will negatively affect residential and recreational Environment
- . It will negatively impact the health and safety of local residents.

Who will bear the cost of roadworks damaged by the ongoing heavy vehicle usage of the area, Local residents or council?

Your sincerely
