---

To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

Below are the reasons:

1. **Dust fumes, Bad Smell, Noise:** The building of transfer station will raise dust fumes and bad smell, and transfer trucks going around will raise noise. These will have negative impacts on people living nearby.
2. **Traffic congestion:** There is no doubt if waste transfer trucks going around will lead more traffic congestions.
3. **Pollution:** Environment impact of air pollution, soil pollution and sound pollution.
4. **Too close to residential area:** There are residential buildings and schools nearby. We should protect our children from pollution, while the transfer station destroy a nice and quiet neighborhood around this area.

Your sincerely,
