---

To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

The location is very close to the residential area, where has many apartments, houses, restaurants, groceries. Moreover, within around 15mins walk, there are two schools. If the organic waste transfer station is built there, this will destroy the nice and quiet environment around this area. The noise, dust fumes, bad smell from transfer station and waste transfer trucks are not conducive to creating a good environment for children in school and people living nearby.

Moreover, we already have busy traffic on Church Street, we don't want to see once the transfer station has been built there will be waste transfer trucks going around and causing more traffic congestions.

Object to the following point:

- . Too close to residential area, where has two schools.
- . More traffic congestion.
- . Noise.
- . Dust fumes.
- . Bad smell.

Your sincerely,
