Dear Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

This DA will increase more congestion, Noise , Bad Smell and Dust Fumes for our suburb. We had a nice and quiet neighborhood around this area. There are some primary schools, church and kindergarten in our home place. Building Garbage plant will have bad effect for the health of children growing up and impact our elders.

We don't want to see once the transfer station been built there will be waste transfer trucks going around and causing more traffic congestions, with 120 truck movements daily, and each truck being 20metres long.

In addition, more noise and dust fumes and bad smell would come from the trucks and the Plants from the transfer station.

Object to the following point:-

- . More traffic congestion.
- . Noise.
- . Dust fumes.
- . Bad smell.

Please listen to our voice and allow the future generation and local residents of Lidcombe have a safe and enjoyable lifestyle.

Your sincerely,
