To Cumberland Council,

We would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492, File: DA2023/0130

This is a quiet neighbourhood for residents with apartments being built for new residents. A waste transfer station will increase the number of waste transfer trucks leading to increase noise and traffic congestion. The waste transfer station will also introduce detrimental noise, dust, smells, fumes and pollution to this residential area.

We object on the basis that it will

- Increase traffic congestion
- Increase noise
- Result in increase in dust, fumes, smells and odours

All these will have significant detrimental impacts on the area and nearby residents.

Yours sincerely,
