---

To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

We had a nice and quiet neighborhood around this area. There are apartments being built and already have busy traffic on Church Street, we don't want to see once the transfer station has been built there will be waste transfer trucks going around and causing more traffic congestions. Also, object to the noise and dust fumes and bad smell from the trucks and the Plants from the transfer station.

Lidcombe is now an area where the elderly and children are mostly present, and there are more and more restaurants. If a garbage station is built, it will not only affect their health, but also affect the surrounding environment. I believe no one is willing to live near a garbage station every day. Lidcombe is now a very good suburb to live in. It would be foolish to put up a refuse collection station that would diminish the quality of life and the economic benefits. So I strongly oppose this act of proposing garbage stations in Lidcombe!

Object to the following point:-

- . More traffic congestion.
- . Noise.
- . Dust fumes.
- . Bad smell.

Regards
