To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

We had a nice and quiet neighborhood around this area. our family been living in lidcombe and berala for than 15 years. We love our community. There are apartments being built and already have busy traffic on Church Street, we don't want to see the transfer station to be built. There will be waste transfer trucks going around and causing more traffic congestions. Also, object to the noise and dust fumes and bad smell from the trucks and the Plants from the transfer station. This transfer station is way too close to two primary schools in lidcombe. Traffic condition is already busy on school drop off and pick time. We don't want any more of that. Many of our kids have nose allergy, air pollution could cause more serious allergic reaction.

Object to the following point:-

- . More traffic congestion.
- . Noise.
- . Dust fumes.
- . Bad smell
- possible health issue for kids

Your sincerely,
