Dear Cumberland Council,

I am writing to you regarding the proposal of building a rubbish tip (Organic Waste Transfer Station on 109A Church Street, Lidcombe (DA2023/0130)). I would like to submission my OBJECTION to the proposed construction location where is closed to my residential property that I am currently living.

There are many reasons for objection. First, the propose construction of rubbish tip is closed to schools, child care, aged care and residential properties. This has raised my concern of many negative impacts to my local community such as dust fumes, bad smell which will cause air and soil pollution plus the traffic congestion of heavy vehicle (such as large garbage trucks) movement everyday enter and exit from Lidcombe Street that will impact to my community tranquillity resulting from the noise pollution as well as the road and street damage from heavy vehicle movement. This will cause significant negative impacts to my local residential health and safety, environment as well as property values.

Therefore, I would like to submit my OBJECTION to the proposing a rubbish tip at Lidcombe (DA2023/0130). Please consider the negative impacts that will be occurred to our local residents. Thank you for your time in reading my concern.
