I wish to highlight my opposition to the Proposal Waste Transfer Depot at Lidcombe

The proposal will have significant effect upon the residents of Lidcombe caused by the significant risk of odour from the movement and transport of waste through the area.

Schools and age care facilities within Lidcombe will be at risk of being adversely effected.

Lidcombe already has far too much traffic and the proposed truck movements will further impact not only the shopping area of Lidcombe but also the surrounding neighbourhoods.

Such activity upon the road network will certainly cause damage to the local road infrastructure at great inconvenience to the local area.

This proposed site for the Depot is far too close to residents and is not in the best interests of the community.
