Good morning Council team,

I am lodging a submission re: **DA2030/0130 at 109A Church St Lidcombe.**
As owners at 11 Dalley St Lidcombe, we are **STRONGLY** opposed to this development application to build a Waste Transfer Station.

Our major concerns are:

- great chance of odour emissions and smell
- increased noise pollution during and after construction
- increased traffic during and after construction.
- lack of street parking along Dalley Street.

As neighbours along this railway corridor, the current new development of multi-storey housing along Church Street causing noise and lack of street parking, another development, especially industrial, will be unbearable.
WE SAY NO TO A WASTE TIP IN LIDCOMBE.

Kind regards,
