Reason for objection : See stated reasons below in list items

Dear Councillor,

My family and I have been living in the above address for over 40 years and it has been very good environment for my children and grandchildren to live here.

I am **STRONGLY OBJECT** the proposal for the construction of organic waste station for the following reasons :

1. **This will cause health hazards to the area we are living, e.g. more fly and insect build up**
2. **Polluted the air around the area and causing bad smell**
3. **Will negatively impact the property values around the area**
4. **This will create more trucks coming and go in the area and making dustier and congestion on the road within the area.**
5. **It will cause more noise hazards while heavy trucks moving around**
6. **Local residents will bear the cost of roadworks damaged by ongoing heavy vehicle usage of the area**

The whole community of Lidcombe will be very disappointed if this proposal can go ahead, so please stop this organic waste construction.

Councillor, please re-consider not to go ahead with this development especially not in the suburban residential area.

Best regards,
