To regarding about OBJECT to the development DA2023/0130, Site 109A church Street Lidcombe NSW 2141 Lot 1 DP 778492, I have strongly DISAGREE!!!!!! The reason from my opinion is:

1. The population of Lidcombe is more than twenty four thousands!!! And many of apartments are still ongoing to development which means the population will be keep growing!!! The traffic has been crowded already! That's hard to imagine how worse it will be if including the garbage bins trucks are running around at Lidcombe every day!!!
2. 109A church street Lidcombe NSW 2141 which is less than 100 metres away from local residents properties , schools , childcare, aged care, parks and businesses !!!! The Organic Waste Transfer Station will lead to damage the environment(dust fumes and bad smells), air noise and soil pollution.
3. Negatively impact the tranquility of our suburb
4. Negatively impact the health and safety of local residents
5. Negatively impact property values
6. Negatively affect residential commercial and recreational environment
7. Local residents will bear the cost of roadworks damaged by the ongoing heavy vehicle usage of the area

I believe that the starting point of every decision of the government is for the better development of the community!

Lidcombe is our home!

Help protect our community from pollution!

We want a safe and clean suburb to inhabit!

Looking forward the feedback please!!!
