Dear Cumberland Councillors.

I am writing to object the proposed DA2023/0130. My objection is based on the following grounds:

- It will have heavy truck movements on Church street and this will inevitably cause traffic congestion, air and noise pollution, thus it will have negative impact on road users safety, and their health.
- The waste transfer station will cause fumes and bad smell, thus will impact local resident's health and well beings

I urge you to re-evaluate this proposed construction, and consider the impact to health and safety of local residents and the irreversible impact to our neighbourhood and its surroundings.

Regards,
