**Reason of objection:**

I still don't understand what is the purpose of putting a rubbish tip in Lidcombe near residential and commercial buildings. Are you freaking serious with the proposal? Are you trying pollute the air and soil with the unwanted smell?

Also already there is a lot of congestion (traffic) in Lidcombe are planning to make it worse? Rather than spending that in a rubbish tip make a better community with playgrounds and bbq area.

I live in Lidcombe and I want a better life for my kids and if something happens to my kid is the council taking responsibility about it? I don't think so. So please don't make the suburb miserable with a stupid idea of proposing a rubbish tip and make the area unlivable. Plus if my property value goes down, I hope you take responsibility about it.

To be honest and to be straight forward, don't regret making a stupid decision and don't get in trouble with the community for an absurd idea of proposing such unthoughtful proposal.

Regards
